

SIMPLE
BEAUTIFUL
STRONG

Your best option for high strength metal free restorations

We offer various degrees of strengths and translucency. Multilayered and high translucency zirconia is used for more esthetic and anterior restorations*

Benefits of Full Contour Zirconia

- Full contour zirconia crowns and bridges without a ceramic veneer
- No chipping
- Cost effective and esthetic metal free restorations
- Biocompatible and durable
- Suitable for cases where occlusal space is limited

Zirconia Layered

Zirconia Layered with porcelain delivers esthetics and strength all in one. By offering a substructure of 1250 mpa with a porcelain overlay, it provides the ideal translucency for the life like esthetic demands of metal-free anterior and posterior restorations
