

**A Hollywood Smile...
For a Fraction of
the Price!**

Covers uneven or crooked teeth

"Closes" spaces between teeth

Enhances an existing smile ruined by stains or cracks

ACTUAL PATIENT

MULTI-MILLION DOLLAR TV CAMPAIGN DRIVES **NEW** PATIENTS THROUGH YOUR DENTAL PRACTICE!

Proven in 1,000's of Patients' Smiles

Snap-On Smile is a non-invasive cosmetic, removable arch that literally snaps over existing dentition without adhesives...and without impinging on gingival tissue or covering the palate. The patented transitional taper design is contact lens thin in the anterior and provides increased strength in the posterior, where it's needed. The specialized medical-grade resin is flexible, comfortable and natural-looking. Patients can wear it all day, every day!

Chairtime is minimal—diagnose and deliver in just 2 short appointments. It's backed by a 12-month warranty, with an optional extension to 36 months, so you can prescribe Snap-On Smile with total confidence.

Results are amazing! Patients love their new Snap-On Smile, which is so comfortable and so natural that they forget they're wearing it. For life-changing new smiles, painlessly, prescribe Snap-On Smile.

PUT THIS POWERFUL NATIONAL TV CAMPAIGN TO WORK FOR YOUR PRACTICE!

"Bye-bye, Flipper!"

Esthetic • Comfortable • Efficient

The Flipper Replacement

No More Flippers!

The Better Choice
for Partial Dentures.

Snap-It! is the ideal replacement for uncomfortable partial dentures or bulky flippers that make eating a chore. Finally, no more coverage of palate and gums with uncomfortable flipper appliances!

Snap-It! is surprisingly flexible yet incredibly strong and simply snaps into place over the patient's existing dentition, with NO prepping, NO injections and NO adhesives.

"Finally, a temporary partial replacement for a missing tooth that works! My patients love it! Snap-It! feels secure so they can speak and eat with it without worrying about it becoming loose and falling out. It's simple and literally snaps into place. Snap-It! is a great solution to no more flippers!"

—Dr. Terri Alani, Houston, Texas
